

# Emergency Medicine Residents' Association

May 5, 2014

Dear ISAEM Board of Directors,

We are writing to extend our support of ISAEM and its goal of creating a global network of emergency medicine student organizations. It is wonderful to see a group so fully committed to education, advocacy, and the field of emergency medicine – priorities that EMRA wholeheartedly shares.

We are enormously grateful for ISAEM's support of our endeavors and look forward to future collaborations. It will be a pleasure to watch your organization grow to become a leader in the specialty by supporting medical students all over the world.
